

March

In the beginning God created the heavens and the earth. Genesis 1:1

God created the whole world and all that is in it! Before anything was ever here, God was! He spoke and the earth and everything in outer space was created! God would continue to create for a whole week! Light and dark, trees, mountains, grass, birds and fish, animals and insects, and then finally two people! God looked at everything He had made and said that it was good! God is so powerful! He can do anything... even create the whole world!

Pray: Go outside and take time to thank God for specific things you see that He created.

Example: Thank you God for this beautiful blue sky and the birds that I see flying!

Ideas to Live It Out:

- Read Genesis 1 from the Bible or read the creation story from a children's storybook Bible.
- Take a walk and point out things that God made. Take a bag with you and pick up interesting leaves, flowers, rocks. Remind your child that God created each of these things.
- Make a collage of leaves and flowers that you collect, or put the items in a jar and place it somewhere you will see it often. When you see the jar, practice quoting the memory verse with your child.
- Make up a song or motions together to learn Genesis 1:1
